CS 1101 Lab Activity 01 - Intro to Tools

Released on: Monday, August 27
Due on: Wednesday September 5, beginning of class
How: submit zip file to Google classroom
What: A zip file named after you (LastNameFirstName-lab1.zip) containing two screenshots.

In this lab, you will be getting familiar with a few different tools you will be using throughout the semester:
- Google classroom
- http://repl.it
- zipping files together

Google Classroom

Go to http://classroom.google.com and enter the code **xp2aovw**. Find the first lab (you should find this doc attached).

Pre course survey

Go to the survey: http://bit.ly/2BncSwc, complete the survey. Take a screenshot and move to a folder named LastNameFirstName-lab1 (but put your name).

repl.it

Go to http://repl.it and enter **Java** into the textbox. Change the code so it prints your name instead of "Hello World". Take a screenshot that shows the code and the text output and put it in your folder named LastNameFirstName-lab1 (remember, it should be changed to your name)

What do you have to turn in?

Two screenshots together in a zipped folder named after you (LastNameFirstName-lab1.zip).

Criteria for grading:

- **[10 pts] Your lab is submitted according to specifications (proper name of file, proper format)**
- **[40 pts] Completing the form**
- **[25 pts] Screenshot showing you completed the form**
- **[25 pts] Screenshot showing you ran repl.it to print your name**
